

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James E. Armstrong, IV on 2-13-11.

The application has been amended as follows:

In the second line of claim 6, the language "-type" has been deleted.

After the last word of claim 8, a period, ".", has been inserted.

In the 1st line of claim 9, the language "according to claim 8" has been deleted.

In the 3rd line of claim 9, the first use of "(1)" has been deleted and replaced with "(i.)".

In the 25th line of claim 9, the terminology "30/70" has been deleted and replaced with "40/60"

After the last word of the 25th line of claim 9 {the line ending with the language "... to 60/40;"}, the following language has been inserted:

" wherein the polyol (B) is a polyol containing ether bond in a principal chain thereof and having a molecular weight of 100 to 1500 and/or a polyol containing methyl group in a side chain thereof and having a molecular weight of 50 to 500, " .

In the 26th line of claim 9, the first use of "(2)" has been deleted and replaced with "(ii.)".

In the 28th line of claim 9, the first use of "(3)" has been deleted and replaced with "(iii.)".

In the 30th line of claim 9, the term "(4)" has been deleted and replaced with "(iv.)".

In the 33rd line of claim 9, the term "(5)" has been deleted and replaced with "(v.)".

In the 35th (the last line) line of claim 9, the term "(6)" has been deleted and replaced with "(vi.)".

The following is an examiner's statement of reasons for allowance: The instantly claimed products and processes provide for arrangements of a claim specified polyol (B) and polyaminochlorophenylmethane mixture (A) that form combined mixtures in

Art Unit: 1765

which (A) is uniformly dissolved in (B). Inclusion of these arrangements of (A) uniformly dissolved in (B) in the products and processes as defined by applicants' claims is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Cooney whose telephone number is 571-272-1070. The examiner can normally be reached on M-F from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck, can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

/John Cooney/

Primary Examiner, Art Unit 1765
